## A true "Dual Purpose" stallion

-renowned for producing *trainable* and *highly talented* competition horses in dressage, show jumping and eventing.

**Progeny competing Advanced Eventing and Intermediaire II Dressage**

**Fulton** is an outstanding example of the classical warmblood competition horse—superb temperament and rideability—with excellent conformation, athleticism, paces and jumping technique  
*-qualities proven to be passed on to his progeny.*  
His world-class pedigree is a superb foundation for a genuine dual-purpose competition horse with the potential to successfully take any serious rider to the top of their chosen discipline.

## Breed Profile

Fulton's grandsire Fruehlingstraum II, as a principal Westphalian sire, procreated both dressage horses and show jumpers of the very highest quality including show jumper FIRE who, ridden by Norbet Koof, won the 1982 World Championships.

His paternal great grandsire Fruehling, founder of this own line, is noted for the rideability of his countless offspring. Fulton's other great grandsire Angelo produced world ranking dressage horses like Amon and the World Dressage Champion AHLERICH ridden by Dr Reiner Klimke, yet himself dominated in show jumping.

## Performance

- Began competing aged 10 and in only 15 months dressage training with Carrie Adams, he achieved Medium Level; qualifying for 6 major championships from Novice to Medium.
- Graded to Advanced Medium .
- Won national recognition in 1999 as winner of the British Horse Foundation award for the greatest riser in the British Horse Database (BHD) dressage sire rankings by annual progeny winnings.
