

Fyrnwy Equine Clinics Veterinary Charges 2018

AI Services

Mares will be accepted either on:

- a "pay-as-you-go" basis – suitable for mares AI to Resident Stallions.

Recommended min. veterinary work:

PD scan at 15 & 28 days £112.22 [+VAT]

Or

- an "all in fee" scheme – to cover routine veterinary work connected with reproduction.

Routine veterinary work under the "all in fee" scheme includes:

- Ovuplant or Chorulon
- Prostaglandin injection
- Uterine infusion and associated medication
- Ovary scan
- Insemination
- Pregnancy scans x 2 (day 15 and day 28)
- All associated visit fees for the above work

The following are not included in the "all in fee" scheme

- Examinations and treatments for all injury, illness, lameness etc.
- Dealing with twin pregnancies.
- Blood tests, including EVA and progesterone assays.
- Caslick operation.
- Regumate treatment including other hormone treatments to induce a cycling mare. (Apart from prostaglandin).
- Care of foal.
- Uterine lavage.
- Removal and treatments for retained placenta.
- Pre-insemination swabs for Contagious Equine Metritis (CEM)
- Investigations for infertility such as uterine biopsy, hysteroscopy etc.
(to be discussed with owner prior to any investigation)

Fresh & Chilled AI Semen: £212.02 [+VAT] per cycle

Frozen AI Semen: £293.57 [+VAT]– per cycle;
this includes deep uterine insemination

All expenses incurred for visits, examinations and medicines not included in the AI '*all in fee*' will be payable by the owner directly to the Veterinary Surgery at the end of each month.
